

AQUBANC[®] LLC
STEWARD YOUR RESOURCES™

OPEX CORPORATION APPROVES AQUBANC FOR AS3600 PARTNER PROGRAM

Buffalo Grove, IL – April 22, 2005 – Aqubanc, LLC is the latest AS3600 Partner approved by Opex Corporation. Aqubanc integrated CheckStorm™ and FormStorm™ Enterprise products with the AS3600.

James Cowen, CEO at Aqubanc, explains: "Inside the last 6 months we have seen tremendous interest in the AS3600 by non-profits. After talking extensively with non-profits and seeing production units, the decision to support the AS3600t and the AS3600i was right."

The CheckStorm and FormStorm Enterprise technologies provide robust, easy-to-use and an affordable platform for non-profits to steward their resources. Jim adds, "the exceptional paper handling flexibility makes the AS3600 completely compliant with the Check 21 Pass™ process which eliminates the need for OCR scan lines and barcodes on acquisition, source and fulfillment forms. This makes everyone happy: Development, Gift Receiving and Operations!".
